

# Shekh Ehsanur Rahman

Senior Mobile Developer | Flutter, Android & iOS Specialist

[+880 1747-931646 \(WhatsApp\)](tel:+8801747931646) | [mail@ehsanur.com](mailto:mail@ehsanur.com) | [linkedin.com/in/sujit70777](https://linkedin.com/in/sujit70777) | [ehsanur.com](https://ehsanur.com) | [github.com/sujit70777](https://github.com/sujit70777)

Rajshahi, Bangladesh | Available for Remote Work | EU / US Time Zone Compatible

---

## PROFESSIONAL SUMMARY

Senior Mobile Developer with 9+ years building Flutter, native Android, and native iOS applications, having shipped 50+ apps used by over 1 million people worldwide. Led cross-functional teams across multiple time zones, cutting deployment time 40% while sustaining 4.7+ app store ratings. Maintains an actively-used open-source portfolio of published Flutter packages. Comfortable owning a feature end-to-end — architecture, offline-first data sync, CI/CD, and API integration — in fully remote, async-first teams.

## CORE SKILLS

**Mobile Development:** Flutter, native Android (Kotlin/Java, Jetpack Compose), native iOS (Swift/SwiftUI), React Native, Kotlin Multiplatform (KMP), cross-platform architecture

**Languages:** Dart, Kotlin, Java, Swift, JavaScript/TypeScript, Python

**State Management:** Bloc, Riverpod, Provider, GetX

**Backend & Data:** Firebase (Firestore, Auth, Functions, Analytics), REST APIs, GraphQL, SQLite, PostgreSQL, AWS

**DevOps & Tooling:** CI/CD, Fastlane, Docker, Git

**AI-Assisted Development:** *Claude Code, GitHub Copilot*

---

## PROFESSIONAL EXPERIENCE

### Senior Flutter Developer — Level III — Developer eXperience Hub (Devxhub)

09/2023 – Present | Remote, Rajshahi, Bangladesh

- Grew user engagement 35% and conversion 30% on enterprise FinTech and expense-management apps serving 50K+ users by architecting the Flutter/Dart application layer.
- Cut deployment time 40% for a 4-developer team spanning multiple time zones by designing and implementing CI/CD pipelines.
- Reduced crash rates 15% by introducing advanced state management (Bloc/Riverpod) alongside Firebase Analytics/Crashlytics monitoring.
- Cut cross-project development time 25% by building and publishing 9 reusable Flutter packages to pub.dev, spanning accessibility, offline sync, UI, and utility tooling.
- Kept core app functionality available through network interruptions by implementing offline-first local/Firebase data-sync architecture.
- Cut app bundle size 35% and launch time 45% through code splitting and lazy loading.
- Accelerated feature delivery while preserving code review and test discipline by integrating AI-assisted workflows (Claude Code) into the team's development process.

### Senior Mobile Application Developer — Prabartan Information Technology

06/2019 – 08/2023 | Remote, Rajshahi, Bangladesh

- Reached 100,000+ students across 5 countries by leading development of an offline-first, multi-language EdTech platform.
- Sustained a 4.7-star rating at 100,000+ daily active users by engineering Firebase/SQLite data synchronization.
- Modernized the team's stack while managing 6 developers by introducing Jetpack Compose, SwiftUI, and Flutter 3.0.

### Android Application Developer — Blue Hills Information Technology

07/2015 – 05/2019 | Part-time through 04/2017 (alongside university), full-time thereafter | On-site, Rajshahi, Bangladesh

- Reached 500,000+ downloads and a top-10 ranking in the Education category on Google Play by co-developing consumer applications.
- Cut app launch time 20% and production bugs 10% through performance profiling and code review practices.

### Guest Trainer, Mobile App Development (Contract) — National Academy for Computer Training and Research (NACTAR)

2016 – 2024 | 2–3 sessions/year | Bogura, Bangladesh

- Trained 200+ mobile developers to a 95% course completion rate by designing curriculum aligned with Android and Flutter certification standards.
- Enabled 80% of mentees to transition into professional mobile development roles through hands-on project mentorship.

---

## OPEN SOURCE & TECHNICAL PORTFOLIO

Actively publishes and maintains Flutter packages and live apps, with all source code public on GitHub — used as a verifiable, hands-on body of work in place of a traditional portfolio site.

**Published Packages (pub.dev):** [pub.dev/publishers/ehsanur.com/packages](https://pub.dev/publishers/ehsanur.com/packages)

**Published Packages (pub.dev):** [pub.dev/publishers/devxhub.com/packages](https://pub.dev/publishers/devxhub.com/packages)

**Source Code (GitHub):** [github.com/sujit70777](https://github.com/sujit70777)

## FEATURED PROJECTS

---

**Peace of Mind (POM) — iOS Legacy & Estate Planning App** — End-of-life planning platform: digital will management, a biometric-locked vault, an interactive life timeline, and Apple subscription/IAP billing (individual + family plans). Resolved StoreKit subscription race conditions and led App Store submission/compliance. [\[View\]](#)

**Forward SMS — SMS Forwarder** — Utility app that auto-forwards incoming SMS to email, Slack, Telegram, and Discord in real time, with offline queuing and custom filter rules, built and shipped end-to-end. [\[View\]](#)

**Tanto — Enterprise Reimbursement App** — Brazilian corporate expense-reimbursement platform integrated with state tax agencies (SEFAZ): used AI to capture the unique token on each invoice, validate it against company policy, and reimburse employees instantly via Pix. Company closed Sept 2025; app store listings taken down. [\[View\]](#)

**Farenow — All-in-One Super App** — Multi-service platform for a US-based client (Houston, TX): ride-hailing, on-demand service bookings, food/grocery delivery, virtual consultations, and a real estate/marketplace listings module in a single app. [\[View\]](#)

**Muslim Times Pro — Islamic App** — Prayer-time app with azan alerts, full Quran with recitation/translation, mosque locator, Qibla compass, and Hijri calendar. [\[View\]](#)

**Prabartan Educational Platform** — Suite of learning apps (incl. Learn Python, 100K+ installs) offering structured tutorials and practical lessons. [\[View\]](#)

**SK Mobile School — Secure Learning Platform** — Streams enrolled course videos with screenshot/recording protection, progress tracking, and course search. [\[View\]](#)

**Notivio — Notes & Task Planner** — Notes, reminders, task planner, and calendar app with custom checklists, notifications, and cross-device cloud sync. [\[View\]](#)

**ProofSell — E-Commerce Marketplace** — Bangladesh marketplace for electronics, fashion, and home goods with verified sellers, cashback rewards, and a social-impact model funding orphanages. [\[View\]](#)

**eSIM247 — eSIM Marketplace** — App for purchasing and managing mobile data eSIM plans. [\[View\]](#)

## OPEN-SOURCE PACKAGES (pub.dev)

---

**flutter\_a11y\_lens** — Live accessibility auditor for Flutter — inspects the running widget tree and flags WCAG violations in real time via an on-screen debug overlay. [\[View\]](#)

**flutter\_liquid\_glass\_widgets** — Flutter UI kit implementing Apple's iOS 26 Liquid Glass design language, with shader-powered blur, physics-based jelly animations, and dynamic lighting. [\[View\]](#)

**flutter\_crdt\_sync\_kit** — Offline-first, CRDT-based local data layer for Flutter with automatic conflict-free merge and pluggable Supabase/REST backend adapters. [\[View\]](#)

**local\_voice** — Privacy-first, on-device voice command recognition for Flutter — no cloud dependency, works fully offline. [\[View\]](#)

**flutter\_fabric** — Canvas library porting Fabric.js's interaction model to Flutter/Dart: draggable/selectable/rotatable objects, free drawing, JSON and SVG path support. [\[View\]](#)

**flutter\_scanner\_devxhub** — Barcode/QR scanning plugin for Flutter apps on Android/iOS, supporting a wide range of code types — 15 likes, 51 downloads. [\[View\]](#)

**flutter\_prayer\_time\_calculator** — Calculates Islamic prayer times with customizable calculation methods and location/timezone support. [\[View\]](#)

**flutter\_zoom\_image** — Image zoom package with standard and deep-zoom (DZI tile pyramid) widgets sharing a common gesture and controller layer. [\[View\]](#)

**flutter\_scroll\_date\_picker** — Customizable scroll-style date picker for Flutter, compatible with Android, iOS, and Web. [\[View\]](#)

## EDUCATION

---

### Bachelor of Science in Computer Science & Engineering

Varendra University | 05/2013 – 04/2017 | Rajshahi, Bangladesh

## LANGUAGES

---

Bangla: Native | English: Professional working proficiency
